BILL BOARDS DECLARED A NUISANCE

The superintendent of streets reported to the city commissioners that, on investigation, he had determined that the unsightly bill boards on Twenty-second street and Monroe avenue are a public nuisance and recommended that they be removed.

The recommendation was approved and the removal ordered.

This action was taken in response to a petition from property owners in the vicinity of the boards, asking for their removal.

ASSISTANT CHIEF FISCAL DEPT.

E. A. Melzar, assistant chief of the fiscal department of the national forest service, has been in the city the past two days conferring with District Forester E. A. Sherman and Local Fiscal Agent Q. R. Craft. He will return to Washington this evening.

Mr. Melzar visited Denver before coming to Ogden and within the past few weeks he called on all the district headquarters of the forest service.

He states that he often has new ideas regarding the keeping of accounts and that he meets with the officers of that department and the district foresters immediately prior to the beginning of the fiscal year to have them adopted by the fiscal agents.

WOMEN AS KNOCKERS

London Suffragettes Again Use Hammers on Plate Glass

London, March 7.—The suffragettes resumed their window smashing operations early today. A number of them assembled in the neighborhood of the large dry goods establishments in the West End, soon after dawn, and, as soon as the shutters were taken down, they attacked the plate glass with hammers which they carried concealed beneath their cloaks. The women selected the largest windows in London for their demonstration.

Passersby who witnessed the demonstration did not allow the suffragettes to escape, but detained them until the police arrived on the scene. Six of them were arrested.

KIDNEY BLOW IS NOW BARRED

New York, March 7.—To further improve the boxing game and to remove the last semblance of prizefighting, the state boxing commission today passed a rule abolishing the "kidney punch." This blow is generally used in clinches and is one of the most weakening wallops in the whole repertoire of boxing blows.

This innovation compels the boxer to box clean and the improvement will be appreciated by patrons of the sport.

Another good rule passed was that prohibiting the attendance of youths under 16 years of age at any bouts. Jack Dougherty acted as referee last night at the National Athletic club of Brooklyn. Dougherty has no license, so the club managers and Dougherty will have to appear next week and do some explaining.

Caspar Leon's license as referee was revoked, as the old-time fighter was too incompetent to suit the commission.

Mike Schulanski, who fights under the name of Sweeney, was haled before the court. Schulanski was to receive \$25 for boxing at the Liberal Athletic club. He tried to quit in every round and finally succeeded in the third. The club refused to pay him and reported Schulanski to the commission. The solons decided that \$15 was pay enough for Schulanski.

In the case of Jeff Smith, who declined to box Kid Henry at the last minute before the Albany Exhibition company, the commissioners ruled that Smith must appear at that club before accepting any other engagements. The club offered to stage Smith immediately, but the fighter claimed that he would be unable to appear for several weeks. When the commissioners heard he had agreed to box on March 11, they ordered him to cancel all bouts until he met Henry.

The Eldridge Bicycle club of Tonawanda, N. Y., summoned Bilben before the club. Bilben engaged Al Rogers to box John Dukelman, but Rogers refused to appear. Bilben had posted a forfeit of \$25, but declined to pay when the draft was presented. Bilben had a boy in the semi-windup who was to receive \$25. The club refused to pay Bilben until he had made good the \$25 draft, and the commission ruled in favor of the club.

PUNISHMENT IN A PUBLIC SCHOOL

Iola, Kan., March 7.—Is it brutal and inhuman to whip a pupil with a piece of rubber hose and must such an instrument of punishment be abolished in Kansas schools? This question has divided sentiment in Iola and will so before the district court. Both sides indicated today that in the event of losing the matter would be carried to the supreme court.

Thirteen-year-old Everett Ulrich started the trouble several months ago by failing to keep in line in marching into the Washington school. Prof. Frederick Walters applied the hose to Everett, whereupon the boy's father caused Prof. Walters' arrest on a charge of assault and battery.

The justice court trial was almost a riot. Women hissed the prosecutor and threatened to pull his hair. Justice Duncan made public the following statement:

"The most damaging evidence came from Prof. Walters himself in the shape of the instrument used to punish the boy. This was a piece of half-inch gas hose three feet long. A mule would come out from a beating with that instrument flying signals of distress. Does a boy deserve more consideration than a mule?"

NEGRO IS DISGUSTED

Fails, in Three Attempts, to End His Own Life

Horse Cave, Ky., March 7.—After three unsuccessful attempts to commit suicide by shooting himself in the head, Richard Jones, a 29-year-old negro boy, gave up in disgust, tied up his head and returned to work. He said he "wanted to know what it would feel like in another world."

PREPARING FOR A BIG COAL STRIKE

New York, March 7.—Fear of a strike of the 180,000 anthracite coal miners on April 1 has caused a rush by consumers who wanted coal to carry them over a strike period. This sudden demand became widespread today when it was reported that the railroads, instead of having a large amount of coal in storage in preparation for a possible strike, really were running short and were making every effort to increase their depleted reserve.

In consequence many dealers have increased prices by \$1 to \$1.25 a ton. The operators state the coal at the mines now is selling at the regular March price. A flat refusal of the miners' demands, which is to be made by the operators at a joint conference with the miners' committee next Tuesday, is expected to be followed by sharp modified demands on the part of the miners that will lead to a general compromise and prevent a strike on March 31, when the present working agreement expires.

Some operators, it is now reported, are willing to grant a 5 per cent increase in wages.

PRIMARY IS BEING HELD

Kansas City, March 7.—The first congressional district preferential primary of the 1912 campaign is being held today in the Fifth Missouri district, which comprises Kansas City and Jackson county. Republican voters will express their choice among the presidential candidates and two delegates to the national convention will be instructed for the man they choose.

The primary has attracted wide attention in view of the recent action of Senator Joseph M. Nixon, Theodore Roosevelt's campaign manager, in challenging President Taft's managers to a nation-wide primary.

The names of four candidates, Cummings, Roosevelt, La Follette and Taft, are on the ballot, with a blank line for the name of any other candidate preferred.

DECEIVED THE PUBLIC

Lewis Publishing Company Put Out False Statements

St. Louis, March 7.—The Lewis Publishing company was losing \$30,000 a month for three years while advertisements, holding forth its stock and notes as profitable investments, were appearing in its publications, according to testimony given today by Francis V. Putnam, former treasurer of the company, in E. G. Lewis' trial in the United States district court on the charge of using the mails to defraud.

Putnam said the losses of the Woman's National Daily were \$13,000 a month and were not entered on the publishing company's books as losses, but as added assets, under the head of "franchise account."

Putnam's statements as to the "franchise account" and the losses of the company were made toward the close of his direct testimony.

As a result of an objection when Putnam's cross-examination began, Judge Amidon ruled against going into the history of the conflict between Lewis and the postoffice department in regard to the People's United States bank, against which a fraud order was issued in 1905.

At a conference held recently between representatives of the Latin branch of the Bakers' Union and their employers, the six-day week was conceded.
